Dear Hiring Team:

I am interested in joining a team of creative like-minded individuals in an environment that will help me to contribute to the success of the company or organization. I have been working in the web design field for over 6 years now and am excited at the opportunity to learn and grow in an environment that promotes success and advancement.

My personal portfolio site has 2 resumes one is a design resume that has a bit more detail and creativity to it, and the other is a standard professional resume both with pertinent information regarding the positions I may be suitable for in the organization.

I have experience in many aspects of web design & development including skills in video editing & video production. Please feel free to browse over my resumes as well as my personal portfolio that will guide you through my background as well as my technical skills. I hope that I can find a place within your organization and be able to contribute to the success and growth of the business. Thank you for your time and have a great day.

Sincerely,  
Clayton ORourke
